

4-Port USB-A PCIe Card, USB 3.2 10Gbps, PCI Express 3.0 Expansion Card, 4x Independent USB Controllers, Windows/Linux/macOS, TAA-Compliant

Product ID: P10Q4A-USB-CARD

Enhance the USB connectivity of a desktop computer or server by adding four external USB-A 10Gbps ports with this internal PCI Express 3.0 expansion card.

With its four independent USB controllers, this PCIe USB-C card enables each port to achieve up to 10Gbps performance, reducing bottlenecks and increasing data throughput.

The high bandwidth makes the card ideal for transferring large files, real-time editing of high-resolution photos and videos on external storage, off-loading media from mobile devices, using high-resolution video capture devices, tethered photography equipment, or high-speed USB network adapters such as 10G Ethernet copper or fiber.

This USB PCI Express card can provide up to 5V 3A (15W) per USB-C port, enabling sync and charge of portable devices. If the motherboard can't supply enough power, a built-in SATA power connector supports auxiliary power to maintain stable performance.

The PCIe USB card is plug-and-play in most major operating systems, including Windows, macOS, and Linux. It supports PCI Express 3.0 and x4, x8, and x16 slots. The USB expansion card ships with a pre-installed standard profile bracket.

Certifications, Reports and Compatibility

Applications

Features

- **High-Speed USB PCIe Card**: Upgrade your desktop or server with four dedicated USB-A ports for up to 40Gbps of combined bandwidth, helping to support data-heavy workflows, external drives, or high-speed USB network adapters
- **Maximum Throughput with Dedicated Controllers**: Each USB 3.2 Gen 2 port uses an independent controller to support up to 10Gbps per port, ensuring consistent performance even when multiple devices are connected simultaneously
- **Designed for Broad Compatibility**: This plug-and-play card works with Windows, macOS, and Linux systems, installs into a PCI Express 3.0 x4 (or larger) slot, and ships with a full-profile bracket
- **Add Reliable Power with Auxiliary SATA**: The card's built-in SATA power input delivers up to 5V 3A (15W) per port, ensuring stable performance for bus-powered USB devices or when connecting multiple peripherals
- **The IT Pro's Choice**: Our USB expansion cards are built for consistent performance in professional environments and are tested for compatibility across operating systems and hardware; Backed by free lifetime 24/5 multilingual technical assistance

Hardware

Warranty	2 Years
Ports	4
Interface	PCI Express
Card Type	Standard Profile (LP bracket incl.)
Port Style	Integrated on Card
Industry Standards	PCI Express 3.0
Chipset ID	ASMedia - ASM3142
	ASMedia - ASM2812X

Performance

Total USB Power Output	15W max per port
Maximum Data Transfer Rate	10Gbps
Type and Rate	USB 3.2 Gen 2 - 10 Gbit/s

	UASP Support	Yes
<hr/>		
Connector(s)		
	Internal Ports	1 - SATA Power (15 pin)
	External Ports	4 - USB 3.2 Type-A (9 Pin, Gen 2, 10Gbps, 15W Power)
	Host Connectors	1 - PCI Express x4
<hr/>		
Software		
	OS Compatibility	Windows 10, 11 Windows Server 2019, 2022 macOS; 14 to 26.1 Linux 2.6.31 and up - LTS Versions only
<hr/>		
Power		
	Power Source	Bus Powered
<hr/>		
Physical Characteristics		
	Color	Red
	Product Length	0.0 in [0 mm]
	Product Width	2.2 in [56 mm]
	Product Height	4.7 in [120 mm]
	Weight of Product	3.3 oz [94 g]
<hr/>		
Packaging Information		
	Package Length	6.7 in [17.0 cm]
	Package Width	5.6 in [14.2 cm]
	Package Height	1.2 in [3.0 cm]
	Shipping (Package) Weight	5.6 oz [160.0 g]
<hr/>		
What's in the Box		
	Included in Package	1 - PCIe USB Card 1 - Product Documentation
