Product Description

Newer Dell XPS 14 and XPS 16 laptops (2026+) feature proprietary USB-C® security slots that are incompatible with standard laptop locks, requiring the use of adhesive locking plates which can add bulk, hinder stability and leave sticky residue.

Approved by Dell, the PortLock Combination Laptop Lock addresses these challenges by attaching directly to the specialised USB-C® security slot without requiring an adapter, preserving the laptop's slim profile and supporting full port access. PortLock's low-profile lock head prevents wobbling, while the pivoting design supports user-friendly one-handed attachment.

Featuring preset or resettable 4-wheel combination codes, this intuitive and familiar locking method allows users to secure their compatible devices with ease.

Features

- Dell-approved and connects directly to specialised USB-C® lock slots on Dell XPS 14 and XPS 16 laptops (2026+) – no adapter or adhesives needed.
- Slim lock head provides trusted security without laptop wobble.
- Pivoting lock head lets you secure the lock from any angle - no awkward fiddling, slot strain or port blocking.
- 1.8m (6') carbon steel cable resists cutting attempts and loops around fixed objects.
- 4-number combination lock with 10,000 possible codes means no keys to carry or replace.
- Meets or exceeds rigorous industry standards for strength, physical endurance and mechanical resilience.
- Register & Retrieve™ for quick and secure combination code lookup.
- 5-year limited warranty.

Specifications

- **Lock Management Type** Resettable Combination, Resettable Combination
- **Period of Warranty** Limited 5-year warranty
- **Device Compatibility** XPS 14, XPS 16
- **Security Slot Type** Specialised USB-C
- **Lock Technology** Combination
- **Cable Type** Standard
- **Partner Exclusive** No
- **PDP Request Quote** Yes
