In-wall Speaker

The Vivolink In-Wall Speaker delivers rich, detailed sound in a sleek and discreet frameless design. Developed for professional and residential environments where high-quality audio should be heard - not seen.

With its 2-way speaker construction, Kevlar woofer, and titanium dome tweeter, the speaker provides clear vocals, balanced mids, and powerful bass performance suitable for both speech and music applications.

The frameless magnetic grill ensures a clean architectural appearance that blends naturally into modern interiors, making the speaker ideal for boardrooms, meeting rooms, hospitality environments, showrooms, and home cinema installations.

Vivolink combines elegant design, reliable audio performance, and easy installation in one professional in-wall speaker solution.

Typical applications:

Luxurious boardrooms

Meeting rooms

Hospitality environments

Home theater installations

Retail and showroom environments
