6.5" Passive Weather-Proof 100V Speaker

The Vivolink Weather-Proof Speaker is a versatile 100V / 8 Ohm speaker solution designed for both indoor and outdoor installations.

Built with a sleek 2-way 6.5" design, the speaker delivers balanced and detailed audio for professional environments. The integrated 100V transformer with multiple power tapings (40W/30W/20W/10W) makes it ideal for commercial audio systems in restaurants, cafés, cantinas, retail stores, meeting rooms, terraces, and public spaces.

Its IP65-rated cabinet ensures reliable operation in covered outdoor environments while maintaining an elegant appearance suitable for indoor use. Easy mounting options allow installation on both walls and ceilings, providing flexible and consistent sound coverage.

Vivolink combines professional sound quality, flexible 100V installation possibilities, and durable weather-resistant construction in one compact speaker solution.
