MICROCONNECT PREMIUM USB-C TO RJ45 2-IN-1 ADAPTER WITH 100W POWER DELIVERY

RELIABLE CONNECTIVITY. CLEAN SETUP. ZERO INTERRUPTIONS.

Stable Network & Power in One Compact Solution

In today's work environments, dependable connectivity is essential for productivity and efficiency. The MicroConnect Premium USB-C to RJ45 Adapter with Power Delivery provides stable, high-speed network access while simultaneously powering your device all through a single USB-C connection.

Designed for everyday professional use, this adapter helps minimize connectivity issues, reduce cable clutter, and simplify your workspace setup. Whether used at a desk, in shared workspaces, or as part of a flexible BYOD setup, it ensures consistent performance and reliable operation throughout the day.

Key Benefits

Stable Gigabit Ethernet

Achieve reliable, high-speed wired connections up to 1 Gbps – ideal for video conferencing, large file transfers, and secure corporate networks.

Integrated 100W Power Delivery

Power your laptop while you work. The USB-C PD port supports up to 100W charging, eliminating the need for additional adapters.

Built for Professional Environments

Compact, durable, and plug-and-play compatible across major operating systems – perfect for IT setups, hot desks, and mobile professionals.

Seamless Integration

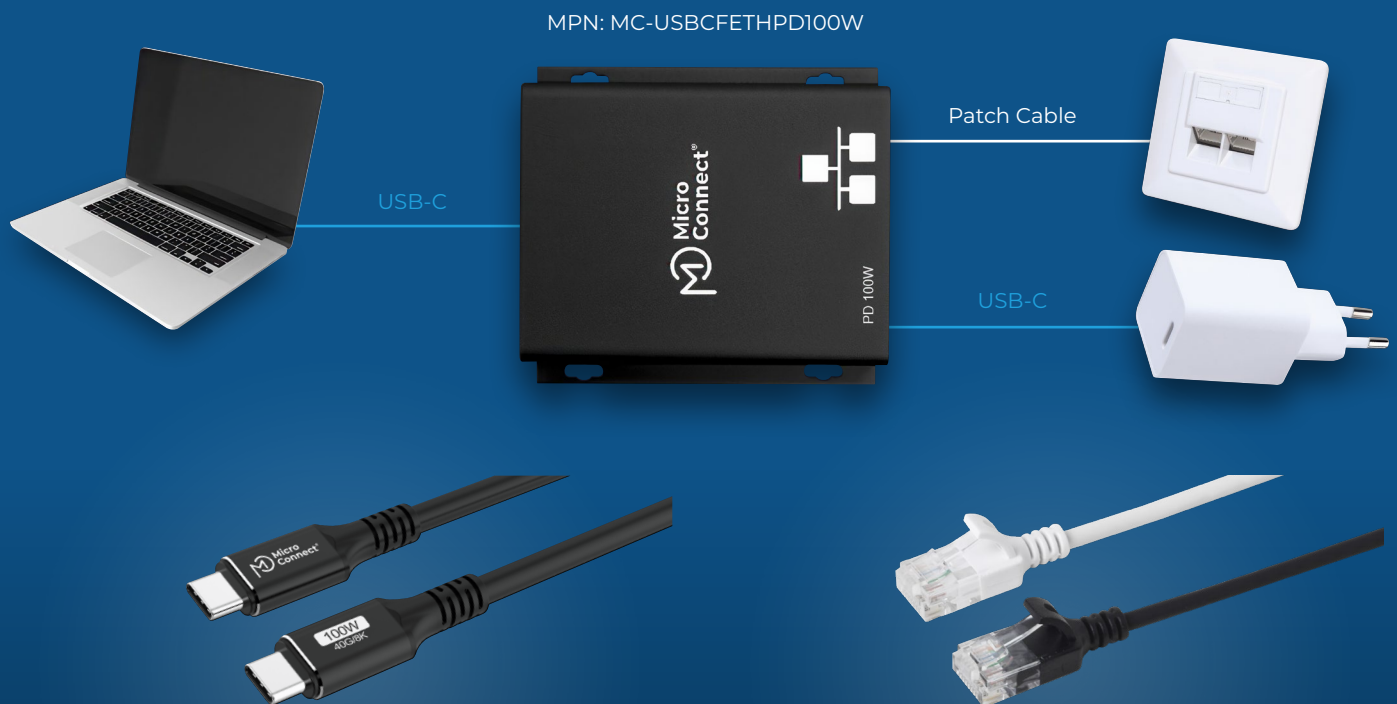

Supports wake-on-LAN and MAC address pass-through, ensuring compatibility with enterprise network environments and IT policies.
