

HP Compaq LE2002x 50,8 cm (20") LED Backlit

LCD Monitor

Enterprising Display with LED Advantages

Introducing a competitively priced dual input monitor from HP that combines sleek design, responsible features, and high performance.

Maximize Your Workspace

The HP Compaq LE2002x looks great in any environment as it frees up valuable desk space with a thin profile and modest footprint. This is due to the sleek design and small, lightweight LEDs that provide the backlighting for the monitor. LED's not only enable a monitor to be thin and light, but because they are solid state devices, they are also more robust and resistant to external shock compared to CCFL monitors.

Reduce Your Impact

Designing more responsible monitors is one way HP strives to help reduce environmental impact. The HP Compaq LE2002x provides a variety of environmental features, such as:

- A Mercury-free LED backlit panel eliminates concerns over the use of the element;
- BFR/PVC-free components and Arsenic-free¹ display glass enable responsible recycling;
- An EPEAT[®] Silver² registration, an ENERGY STAR[®] qualification, and a TCO Displays certification means your investment has met required energy efficiency and environmental performance criteria, enabling a responsible purchase

Boost Your Performance

Be sure to take note of the other innovative components of this monitor, which include:

- A 50,8 cm (20") diagonal screen with a wide 1600 x 900 native resolution makes viewing content side by side a snap;
- A staggering 3,000,000M:1 DCR, 170°/160° viewing angles, and fast 5ms response times offer crisp, detailed views of work³;
- Dual inputs (DVI-D and VGA) provide advanced connectivity options;

- Display Assistant Software enables theft deterrence, energy savings, convenient desktop partitioning, and custom picture quality;
- Tilt adjustability helps provide clear views at many different angles;
- VESA compatibility provides a wide range of mounting solutions;
- A cable management clip keeps unruly cords in place

Relax with HP Reliability

Backed by award-winning HP worldwide service and support, this monitor's three year limited warranty with optional extended care packs includes parts, labor, and on-site service, helping assure your future business needs are covered.

HP Compaq LE2002x 50,8 cm (20") LED Backlit LCD Monitor
