

docking speaker with Bluetooth®

- for iPod/iPhone/iPad

DS3600/37

Sound that fits your home

Obsessed with sound

On your desk or anywhere else, this dashing docking speaker delivers crystal-clear sound that fills your personal space, and ensures wireless Bluetooth streaming and also synchronize your iPod/iPhone/iPad with your PC.

Benefits

Crystal clear sound

- DBB to preserve low tones for deep bass at any volume level
- Shielding technology to block mobile phone interference
- 20W RMS total output power
- Precisely tuned bass pipes for deep, tight bass reproduction

Simplicity

- Bluetooth wireless music streaming from iPod/iPhone/iPad
- Free DockStudio app for internet radio & other cool feature
- AUX-in for easy connection to almost any electronic device
- Remote control complements speaker design and finishing
- PC synchronization with your iPod/iPhone/iPad

PHILIPS

Features

Dynamic Bass Boost (DBB)

Dynamic Bass Boost maximizes your music enjoyment by emphasizing the bass content of the music throughout the range of volume settings - from low to high – at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

Bluetooth music streaming

Bluetooth is a short range wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection

to other Bluetooth devices, so you can play your favorite music from your iPod, iPhone or iPad on your Philips audio system - conveniently, anytime you want.

DockStudio app on App Store

The free app adds an array of exclusive cool features to your docking speaker. You can check the weather, tell the time and even use your favorite images as wallpaper. DockStudio also lets you listen to thousands of Internet radio stations worldwide. More updates on skin styles and new functions on the way.
