

Kensington

Universal 3-in-1 2.0 Combination Laptop Lock

One lock. One tip. Broad compatibility.

K63394WW

Product Description

Securing a mixed fleet of laptops with different lock slots (standard, nano or wedge-shaped) can force organisations to juggle multiple lock types or rely on locks with swappable tips. Such solutions add complexity, risk lost pieces and may compromise security.

The Universal 3-in-1 2.0 Combination Laptop Lock solves these issues with a true one-tip design that fits all three slot types, requiring no interchangeable parts.

Built with Kensington's trusted quality, the lock delivers robust protection against tampering and theft, simplifying device security deployment for IT teams and ensuring consistent protection across a variety of devices.

Features

- One lock tip fits standard, nano and wedge-shaped security slots.
- 360° rotatable head enables one-handed locking from any angle without blocking ports.
- Proprietary cleat lock firmly grips inside the slot for a secure hold.
- 1.8m (6') cut-resistant carbon steel cable with plastic sheathing.
- Resettable 4-digit dial offers convenient keyless security with 10,000 possible code combinations.
- Verified and tested for strength, physical endurance and mechanical resilience.
- Free code registration allows for quick, easy, and secure lookup if combination is ever lost or forgotten.
- 5-year limited warranty.

Specifications

- **Lock Management Type** Resettable Combination
- **Cable Length (ft/m)** 6/1.8
- **Cable Type** Standard
- **Partner Exclusive** No
- **PDP Request Quote** Yes
- **Period of Warranty** Limited 5-year warranty
- **Security Slot Type** Universal
- **Lock Technology** Combination
