

Kensington

Universal 3-in-1 2.0 Keyed Laptop Lock

One lock. One tip. Broad compatibility.

K63389WW

Product Description

Securing a mixed fleet of laptops with different lock slots (standard, nano or wedge-shaped) can force organisations to juggle multiple lock types or rely on locks with swappable tips. Such solutions add complexity, risk lost pieces and may compromise security.

The Universal 3-in-1 2.0 Keyed Laptop Lock solves these issues with a true one-tip design that fits all three slot types, requiring no interchangeable parts.

Built on Kensington's 5mm Keying System with patented anti-pick Hidden Pin™ technology, the lock delivers robust protection against tampering and theft, simplifying device security deployment for IT teams.

Features

- One lock tip fits standard, nano and wedge-shaped security slots.
- 360° rotatable head enables one-handed locking from any angle without blocking ports.
- Proprietary cleat lock firmly grips inside the slot for a secure hold.
- 1.8m (6') cut-resistant carbon steel cable with plastic sheathing.
- 5mm Keying System compatible across all of Kensington's latest locks.
- Verified and tested for strength, physical endurance and mechanical resilience.
- Free registration program for secure replacement of lost keys.
- 5-year limited warranty.

Specifications

- **Lock Management Type** Standard Keyed
- **Cable Length (ft/m)** 6/1.8
- **Cable Type** Standard
- **Partner Exclusive** No
- **PDP Request Quote** Yes
- **Period of Warranty** Limited 5-year warranty
- **Security Slot Type** Universal
- **Lock Technology** Keyed
