Nitro Combo Set

Elevate your everyday play with the ultimate power couple: precision at your fingertips and speed in every click

Unleash Precision and Speed

Dominate the digital battlefield with the NAK200 keyboard and NMW200 optical mouse. This combo features a durable ABS full-size keyboard and a high-performance mouse with a 7200 DPI sensor for pixel-perfect accuracy. With seamless plug-and-play USB connectivity, you can jump straight into the action without needing extra drivers.

Tactical Control at Your Fingertips

Never miss a command with 19-key anti-ghosting, ensuring every move is registered during intense gameplay. The keyboard allows you to swap W/S/A/D with the arrow keys to fit your playstyle, while the mouse offers 6 dedicated buttons and an instant DPI switch to cycle through six sensitivity levels. It is the ultimate toolset for gamers who demand reliability and rapid response.

Dynamic Lighting and Style

Illuminate your setup with a vibrant Rainbow LED backlight that features a "breathing" mode and four adjustable brightness levels. Match the intensity of your game by controlling the breathing frequency with three built-in gears. This stylish set doesn't just play great; it looks the part, bringing a professional gaming aesthetic to any desk.

Nitro Combo Set

NUM LOCK Caps LOCK Scroll LOCK

• 19 Key Anti-Ghosting:

Q、A、Z、W、S、X、E、D、C、B、Space、↑、↓、←、→、Tab、Alt-L/V、Ctrl_L/F、Shift_L

- The brightness can be increased/decreased through Fn+PgUp/PgDn. It defaults to high brightness when powered on and has four adjustable brightness levels: high, medium, low, and off (in constant brightness mode).

4.1 In USB mode, it supports 19-key anti-ghosting function. (Q、A、Z、W、S、X、E、D、C、B、Space、↑、↓、←、→、Tab、Alt-L/V、Ctrl_L/F、Shift_L)

4.2 In USB mode, backlight brightness adjustment is supported. Press Fn+PgUp/PgDn to increase/decrease brightness. Defaults to high brightness on power-on. Four brightness levels adjustable (in constant-on mode): High/Medium/Low/Off.

4.3 In USB mode, breathing light function is available: Press Fn + the key to activate the breathing function, which cycles through different colors automatically. Meanwhile, breathing frequency adjustment is supported: Press Fn + "-" / Fn + "=" to control the breathing frequency with 3 built-in gears, defaulting to the fastest gear on power-on.

4.4 In USB mode, W/S/A/D and ↑/↓/←/→ key swap function is supported: Press Fn+W to toggle.

4.5 In USB mode, Win lock function is supported: Press Fn+Win_L to lock the Win key, press again to unlock.

4.6 In USB mode, multimedia functions are available via Fn+[F1~F10, F12]:

Combination Key	Functions Realized	Combination Key	Functions Realized
