## Secure Tablet and iPad Floor Stand incl Brother Printer Mount (White)

The Tablet and iPad floor stand + Brother® Printer Mount is designed for visitor management and is compatible with Apple, Samsung and Microsoft tablet devices

The printer mount secures the label printer with 4 screws (compatible with Brother® QL-820-NWB, QL-820NWBc or QL-810W), manages the power cable and catches the label. It also retains access to the printer lid so you can change the paper reel when it runs out.

The lockable enclosure keeps your tablet safe and secure, whilst concealing the tablet power cable.

The heavy solid steel base ensures stability, perfect when mounting to the floor is not an option (can be mounted to the floor if preferred).

- Secure your tablet within the enclosure using our Lock and Key system.
- – Includes a 2 meter USB Sync and Charge Cable (excluding Microsoft tablets). Run the charging cables through the inside of your Bouncepad to keep the tablet kiosk powered while being neat & tidy.
- – At 114cm high it is the perfect size for use at standing height. Weighted base prevents tipping keeping the stand stable during user interaction.
- Compatible with the Brother QL-820-NWB, QL-820NWBc or QL-810W label printers
- Mounting holes allow you fix to the floor if required (fixings not included).
- Set in portrait or landscape depending on your content.
- Simple and fuss-free installation with clear instruction manual.
- Store your power adaptor or a battery pack in the base to keep your device charged.
- At 114cm high, this tablet floor stand is the ideal height for standing users.
