

USB-A Port Blocker Key with 4x Latching USB-A Dust Cover Plugs, Snap-In Reusable Port Protectors for Laptops & Computers

Product ID: USB-A-PORT-BLOCKER

Physically block unused USB-A ports to help prevent unauthorized access, data theft, and malware attacks. Each latching dust cover plug can only be removed with the included USB-A Port Blocker Key, providing a visible and effective deterrent in offices, classrooms, and other shared workspaces.

The snap-in USB-A port blockers allow fast, tool-free installation without interfering with adjacent ports. To block the USB-A port, use the included security key to simply insert the blocker plug into the port and secure it in place. When access is required, use the security key for quick removal and redeployment. The reusable design makes it easy to adapt port access as device configurations and security needs change.

In addition to restricting access, the blocking plugs function as dust covers to shield USB-A ports from debris and particulate buildup. This helps preserve port integrity, maintain consistent performance, and extend the lifespan of laptops and desktop computers in high-traffic environments.

Certifications, Reports and Compatibility

Applications

- Enables IT teams to physically block unused USB-A ports on laptops and desktops to deter unauthorized devices, helping prevent data theft and malware in shared or high-traffic environments
- Provides a simple, tool-free method to secure and reconfigure USB port access while also protecting ports from dust and debris, helping maintain device reliability in offices, classrooms, and public workspaces

Features

- **Protect Sensitive Data**: Block unauthorized USB-A access on laptops and computers by physically blocking unused USB-A ports; 4x USB-A plugs can be installed or removed with the included security key, deterring data theft, and malware attacks
- **Restrict Port Access**: Restrict USB-A access across workstations in shared or high-traffic environments using the reusable port blocker plugs
- **Deploy in Seconds**: Secure or reconfigure devices in seconds with the tool-free snap-in design; Use the security key for quick installation, or removal and redeployment as requirements change
- **Keep Ports Clean and Reliable**: Reusable locking dust cover plugs protect USB-A ports on laptops and computers in offices, classrooms, and public spaces from dust and debris, helping preserve port performance and extend device lifespan
- **The IT Pro's Choice**: Designed and built for IT Professionals, this USB-A Port Blocker Key is backed for 2 years, including free lifetime 24/5 multi-lingual technical assistance

Environmental

Warranty	2 Years
Operating Temperature	0C to 50C (32F to 122F)
Storage Temperature	-10C to 50C (14F to 122F)
Humidity	40-50%

Physical Characteristics

Color	Black
Material	Plastic
Product Length	2.8 in [71 mm]
Product Width	0.9 in [24 mm]
Product Height	0.4 in [10.5 mm]
Weight of Product	0.5 oz [13 g]

Packaging Information

Package Length	5.7 in [14.5 cm]
Package Width	3.9 in [10.0 cm]
Package Height	0.3 in [8.0 mm]

Shipping (Package) Weight	0.6 oz [17.3 g]
