### Product Description

Securing a diverse fleet of laptops—each with different lock slots—alongside an additional peripheral such as a monitor or docking station can present a complex challenge. Multiple slot types often require multiple locks or swappable tips—adding cost, confusion, and risk of lost parts. The Universal 3-in-1 2.0 Keyed Dual Lock Head Laptop Lock simplifies this challenge with a true one-tip design that fits standard, nano, and wedge-shaped slots, plus a dual lock head that secures two devices at once. Built on Kensington's 5mm Keying System with Hidden Pin™ anti-pick technology, it delivers strong, consistent protection while reducing inventory, deployment time, and complexity.

### Features

- Secures two devices with one keyed solution.
- Innovative single-tip lock heads fit standard, nano, and wedge-shaped security slots.
- 360° rotatable head enables one-handed locking from any angle without blocking ports.
- Proprietary cleat lock firmly grips inside the slot for a secure hold.
- 6-foot (1.8m) cut-resistant carbon steel cable with plastic sheathing.
- Compatible across all of Kensington's latest locks and includes patented anti-pick Hidden Pin™ Technology.
- Meets or exceeds rigorous industry standards for strength, physical endurance, and mechanical resilience.
- Free registration program for secure replacement of lost keys.
- Custom keying options available for IT administrators.
- 5-year limited warranty.
