Product Description

Today's digital landscape is characterised by persistent password-related vulnerabilities - from weak or reused credentials to increasingly sophisticated phishing schemes - highlighting the need for enterprise-grade security solutions. The VeriMark™ NFC+ USB-C® Security Key delivers strong, hardware-based multifactor authentication. With support for FIDO CTAP 2.1, authentication requires a physical tap via USB-C® or NFC, ensuring only legitimate login attempts succeed, helping to prevent phishing and unauthorised access. Despite its advanced security capabilities, VeriMark™ is designed for everyday ease of use. No software installation or batteries are required - users simply tap the key to authenticate seamlessly across devices and platforms across devices and platforms.

Features

- FIDO2 Level 2 certified security for phishing-resistant protection.
- FIDO CTAP 2.1 for enhanced security features (e.g. resident credentials, Passkey support).
- Backwards compatibility with CTAP 2.
- Tap via USB-C® port or NFC.
- No drivers needed.
- Windows, macOS, ChromeOS, iOS and Android compatible.
- Supports Passkeys and Apple ID.
- Compact and portable.
- IP68-rated for dependable performance.
- 2-year limited warranty.
