

15cm Black Ultra Slim Cat6A Ethernet Cable, UTP, Pure Bare Copper Wire, 34AWG Slim RJ45 Network Patch Cord, Individually Tested

**Product ID:** N6APATUTP34BKS15CM

Connect reliably to a 10Gbps network using this ultra slim Cat6a Ethernet cable, ideal for high-density network installations.

The Ultra Slim Cat6a Patch Cord is 40% thinner than standard Cat6a Ethernet cables, enabling greater airflow and heat dissipation in confined spaces. It is also more flexible for easier cable routing in crowded network racks and patch panels.

The Ultra Slim Cat6a Cable features 50-micron gold-plated RJ45 contacts that ensure a precise fit to minimize wear and signal loss. The 4-pair Unshielded Twisted Pair (UTP) construction utilizes 34 AWG Pure Bare Copper Wire for reliable conductivity and low resistance. The flexible Thermoplastic Elastomer (TPE) jacket offers durable performance and easy handling for everyday network installations.

Each cable is individually tested using a Fluke DSX2-8000 CableAnalyzer to meet ANSI/TIA 568 C.2-1 requirements for guaranteed Cat6a performance, ensuring consistent signal integrity with minimal Near-End Crosstalk (NEXT) and Return Loss (RL). It delivers dependable 10 Gigabit Ethernet performance for switches, routers, and other high-speed network devices.
