Product **Description**

The 163" All-in-One ViewSonic® LDE163-183 Direct View LED (dvLED) display is built for organizations that need high-impact messaging without the cost or complexity of a custom video wall. Power, controls and image processing are already built into the cabinets, so the display ships and installs as a single SKU instead of a multi-part system. A simplified OS gets the display from power-on to full operation in seconds. Durable Glue-on-Board construction, backed by an IP65 dust and moisture rating and an IK06 impact rating, holds up in busy lobbies, classrooms and conference rooms. At 600-nit brightness and a 6,500:1 contrast ratio, the display maintains sharp, vivid image quality even in well-lit spaces.
