

UAC-NMC01, UPS Accessory Card NMC For UPS-2100 Series

Product Images

Short Description

Enhanced Capabilities: Experience unmatched performance and scalability. Built to handle demanding workloads with ease, our device ensures seamless operations and robust reliability.

Remote Monitoring: Stay in control from anywhere. Real-time remote monitoring lets you track device performance and health metrics for proactive management.

Unmatched Security: Design with secure architecture and equip with advanced encryption protocols and innovative design, this device with cybersecure ready.

User-Configurable Firewall: Take control of your network security. Configure and manage firewall settings to suit your unique requirements and keep threats at bay.

Zero-Trust Architecture: Trust no one, verify everything. Our zero-trust model ensures that every access request is authenticated and authorized, minimizing vulnerabilities.

Wake-on-LAN: Power up your devices remotely. Wake-on-LAN functionality ensures accessibility and energy efficiency by enabling devices to be turned on only when needed.

Description

The UPS Network Management card is compatible with multiple power management software solutions and enables users to view real-time status data, receive alerts for power events, configure settings remotely, and integrate the UPS with other network management systems, ensuring business continuity and reducing downtime for critical equipment. Along with standard UPS management features like Remote Monitoring, Remote Control, Proactive Alerts, Data Logging, and integration with monitoring systems using SNMP and Modbus TCP/IP.

Additional Information

Approval and Compliance.	CF/FCC
Operating temperature.	0°C ~ 40°C
Color.	Black
Model Number.	UAC-NMC01
Dimensions (W x D x H).	136 x 66 x 42mm
Product weight (kg).	0.09
Port Configuration.	RJ-45,USB-A,USB-Micro
UPS Type.	Online double conversion
