- **Material:** Sturdy steel and plastic.
- **Color:** Black (RAL 9005).

Description

The equip® 327320 is a 19" 1U cable management panel for data centers and server rooms. It routes and organizes cables neatly across a standard rack.

Five plastic cable rings hold and guide cables to prevent tangling and keep the rack tidy, while a brushed entry strip lets cables pass through cleanly and helps maintain airflow for cooler, easier-to-maintain installations.

Built from sturdy steel and plastic and finished in black (RAL 9005) for a clean, durable rack appearance.
