Description

The equip® 245536 equip® 2-Port 20W GaN USB PD Charger is a compact and efficient charging solution designed for everyday use at home, in the office, or on the go. Built with advanced Gallium Nitride (GaN) technology, it delivers improved power efficiency, reduced heat generation, and a smaller form factor compared to traditional chargers, making it ideal for modern mobile lifestyles.

Equipped with one USB-C port supporting USB Power Delivery (PD) up to 20W and one USB-A port for broad compatibility, this charger enables fast and reliable charging for smartphones, tablets, wireless earbuds, and other USB-powered devices. The USB-C port is optimized for fast charging of compatible devices, while the USB-A port ensures support for legacy devices, offering flexibility in a single compact unit.

With its lightweight, travel-friendly design and dual-port convenience, the 2-Port 20W GaN USB PD Charger is an ideal companion for users seeking efficient, safe, and versatile charging in a compact form.
