- **Color:** Black (RAL 9005).

Description

The equip® 337111 is a 19" 1U fiber optic splice box for flexible fiber management in structured cabling. Supplied without a front panel, it accepts compatible adapter panels so you can configure it for up to 48 fibers in single-mode or multimode.

A sliding steel housing gives ample room for splicing, routing, and storage, with a holder for splice cassettes and an extendible base chassis with pigtail fixing punch-outs. The quick-mount feature speeds installation and reconfiguration as the network grows.

M6 screws, cable ties, and cable glands are included; 483 × 243 × 44 mm; finished in black (RAL 9005).
