Description

The equip® 337200 is a 12-port fiber optic splice box for high-density fiber management in 19" racks. The 1U metal enclosure comes fully equipped with LC Duplex couplers for OS2 single-mode fiber.

It includes a sliding splice tray, coloured pigtails, fiber adapters, and a splice cassette with cover, so it is ready to terminate and protect fibre on installation. A robust steel housing and front-access design make routing, splicing, and maintenance straightforward.

Built for long-distance single-mode links in data centers, telecom rooms, and enterprise networks. Supplied with 4 sets of M6 screws and nuts; 483 × 243 × 44 mm; finished in

black (RAL 9005).
