Expect even, every time
Achieving even results time after time demands precisely controlled heat, distributed consistently throughout your double oven. Unlike standard double ovens, the SurroundCook oven's advanced fan technology ensures that every part of your dish is getting exactly the heat it needs.

Product Benefits & Features

Heat activated catalytic cleaning
The catalytic lining absorbs the grease from cooking and is activated by regular heating to 220°C. The grease residue is oxidised leaving the catalytic surface clean.

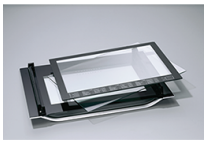

Cooked evenly everywhere
With this oven, using energy efficiently also means cooking efficiently. It has a new convection system called SurroundCook, which ensures hot air circulates evenly throughout the oven cavity. The result is that the oven heats up faster and cooking temperatures can be reduced by

Effortless control. EXPlore LED Display with Touch buttons
Explore a new way to experience your oven with the responsive EXPlore LED Display with touch buttons. The vibrant interface gives you quick access and dynamic control of cooking time, temperature, and other features.

A clear view on cooking
We have carefully placed the lights inside this oven to ensure that you will have a clear view of your dish when cooking.

Improved access to enable thorough cleaning
The glass door of this oven can be completely removed, which provides better access for cleaning the oven even more thoroughly.
