

CUSTODIO03BSM Keyed Chassis Lock, Master Keyed Compatible

Product Images

Short Description

- **Compatibility:** Designed for PC chassis and enclosure security
- **Lock Type:** Keyed locking mechanism for secure device protection
- **Keys:** Includes 2 keys for convenient access and backup
- **System:** Master key system compatible for centralized management
- **Application:** Ideal for securing internal hardware in desktop PCs within office, education, and shared environments

Description

The Keyed Chassis Lock is designed to provide reliable physical security for desktop PCs and devices. It installs directly onto the chassis, offering a simple and effective solution to prevent unauthorized access to internal components and deter theft in office, education, and shared environments.

Featuring a robust keyed locking mechanism, the lock ensures secure attachment while remaining easy to operate. It comes with two keys for convenient access and backup use. For organizations requiring centralized control, the lock is also compatible with master key systems, allowing IT administrators to manage multiple locks efficiently.

Compact, dependable, and easy to deploy, the Keyed Chassis Lock is an essential security accessory for safeguarding hardware and valuable data in professional environments.
