Package Contents

- Multiport Adapter x 1
- Product Documentation x 1

Requirements

For the latest manuals, product information, technical specifications, and declarations of conformance, please visit: www.StarTech.com/177B-USBC-MULTIPORT

- Computer with an available USB-C Port
 - USB-C port must support Power Delivery to enable charging the host and DP Alt Mode for video output

Installation

Install the Multiport Adapter

1. Connect the **Built-in USB-C Host Cable** on the **Multiport Adapter** to a **DP Alt Mode-enabled USB-C Port** located on the **Host Computer**.

Note: The host computer will automatically detect and install the Multiport Adapter.
2. Connect an **HDMI Cable** (sold separately) from the **HDMI Output** on the **Multiport Adapter** to the **HDMI Input** on the **Monitor**.
3. Connect a **Network Cable** from a **Network Jack** or **Device** to the **Network Port** on the **Multiport Adapter**.
4. Connect **USB Peripherals** and **Devices** to the **USB Ports** on the **Multiport Adapter**.
5. (Optional) Insert an **SD Card** into the **SD Card Slot** on the **Multiport Adapter**.

Note: To remove the SD Card, pull the SD Card out.
6. Connect a **USB-C Power Adapter** (sold separately) from an **AC Outlet** to the **USB-C 140W Power Delivery Pass-through Port** on the **Multiport Adapter** to charge the **Host Computer**.
