Immersive sound for everything you love

- DTS:X, DTS Virtual:X for immersive 3D sound in any room
- Dolby Atmos. Immersive cinematic sound at home
- Four EQ sound modes and dialogue enhancement

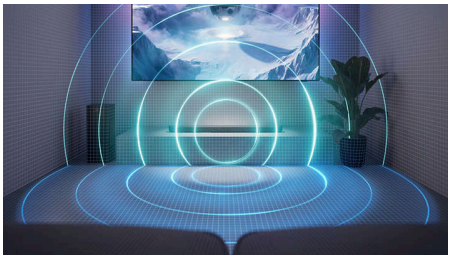

Highlights

Magnetic Fit for Philips TV

Experience seamless elegance with our magnetically designed soundbar—perfectly aligned with Philips TV. Its sleek, minimalist form blends effortlessly into your space, while the magnetic attachment ensures a flawless, gap-free fit. Premium sound, refined design—harmony in every detail.

3.1.2 channels with subwoofer

3.1.2 channels and immersive audio technology bring new levels of sound, while the ultra-compact wireless subwoofer adds impressive weight to effects and music. Multiple EQ modes let you pick a sound style to suit what you're watching—and voices get clearer in any mode if you activate Dialogue Enhancement.

Ultra-slim design

This soundbar has a profile of just 44 mm: it will even fit under Ambilight TVs with lower stands, and the detachable wall brackets (included) give you multiple options. The ultra-compact, powerful subwoofer is easy to conceal and you can position it vertically or horizontally.

DTS:X, DTS Virtual:X

Compatibility with DTS:X and DTS Virtual:X transforms your TV sound, bringing you a virtual 3D sound experience no matter what's on screen! You don't need extra speakers, and it works in any room: turn it on via the soundbar's remote control or the Philips Entertainment app.

Dolby Atmos®

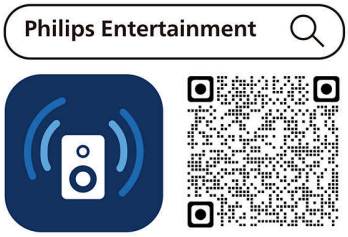

Dolby Atmos places sound effects in the space around and above you, creating three-dimensional spatial sound that pulls you in deeper. Activate it via the surround-sound button on the soundbar's remote or the Philips Entertainment app. You'll feel like you're right in the middle of the action.

Easy connections

Compatibility with Bluetooth LE Audio gives you a steadier connection, better sound and less lag if you're streaming playlists from a smart device that is also compatible with Bluetooth LE Audio. You can also connect audio sources to the soundbar via USB.

Philips Entertainment app

Download the app and you can use your smart device to switch between the EQ sound modes, select source, activate virtual surround sound and more.

HDMI eARC. Philips EasyLINK

You can adjust the volume on your soundbar using your TV remote. If you have a Philips Ambilight TV, the EasyLINK function lets you use the remote to switch between the soundbar's preset EQ modes, adjust bass and treble—and more.

Recycled materials

We use post-consumer recycled plastics in our products, and our packaging is made from FSC-certified recycled carboard with inserts printed on recycled paper.
