ICY BOX® Diamond Stand 666

Monitor stand for 6 monitors
up to 32" and 8 kg each

Key features

- Six-screen heavy-duty monitor stand supports up to 32" and 8 kg per monitor
- Detachable VESA® plate for 75x75 and 100x100 makes installation quick and easy
- Sliding bars allow monitors to be moved horizontally for optimal viewing position
- Ergonomic curved rail design keeps all screens aligned within your natural field of view
- Cable clips provide a clean and organized workspace without cable clutter
- Durable aluminum construction ensures long-lasting performance
- Includes both desk clamp and grommet mount to suit any setup

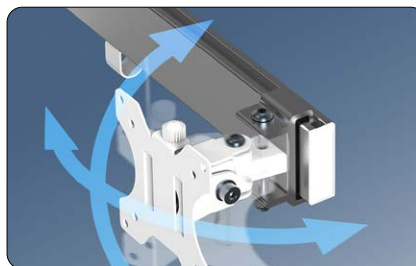

Packing content

1 x IB-MS666-T6
1 x Manual

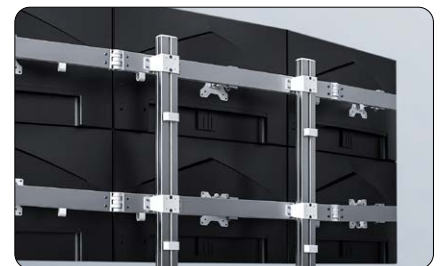

Designed for serious work

Diamond Stand 666 is made for those who take it to the extremes. Handle up to six monitors at once and shape the design studio or office setup of your dreams. The aluminum arms hold each display firmly in place, even when using larger or heavier monitors. This gives you a stable foundation for daily work without worrying about sagging or shifting. When your setup grows, the stand is ready to keep up.

Ergonomic adjustments for you

The sliding horizontal bar and curved rail give you full control over screen positioning. You can move each monitor sideways to build a layout that fits your workflow. The curved design keeps all displays within a natural viewing range, so you don't have to constantly turn your head. This helps reduce strain during long working hours. Your setup feels more natural and easier to work with.

Easy setup with VESA® plate

Hassle-free installation loved by amateurs and pros alike. The detachable VESA® plates make mounting your monitors much more practical. You can attach each screen first, then place it onto the arm without having to hold everything at once. The plates also rotate freely, so you can switch screen orientation at any time. It's a setup that saves time and makes adjustments simple.
