Comfort Manual breast pump

- Natural
- Includes 4oz bottle

SCF330/20

More comfort, more milk naturally

Breast pump with massage cushion

When you are comfortable and relaxed, your milk flows more easily. That is why we created our most comfortable breast pump yet: Sit comfortably with no need to lean forward and let our soft massage cushion gently stimulate your milk flow.

Benefits

Sit more comfortably with no need to lean forward

- More comfortable pumping position due to unique design

Gently stimulates natural let down and milk flow

- Soft massage cushion with warm feel

Easy to combine breast and bottle feeding

- Includes our Natural bottle and nipple for natural latch on

Easy to use, store and transport

- Compact lightweight design

Other benefits

- Intuitive assembly. Easy visual matching of parts
- Compatible with other Philips AVENT feeding products
- Easy cleaning thanks to the small number of separate parts
- Easy manual operation

PHILIPS

Features

More comfortable position

The breast pump has a unique design, so your milk flows directly from your breast into the bottle, even when you are sitting up straight. This means you can sit more comfortably when pumping: no need for you to lean forward to make sure all your milk ends up in the bottle. Sitting comfortably and being relaxed when pumping, naturally helps your milk to flow more easily.

Soft massage cushion

Our massage cushion has a new soft velvety texture that gives a warm feel to the skin for comfortable, gentle stimulation of your milk flow. During pumping, it gently mimics your baby's suckling for natural let down and clinically proven effectiveness. The soft massage cushion is designed to comfortably fit the majority of moms. Should you need it, a larger size cushion is available separately (availability may vary per country).

Includes our Natural nipple

The wide breast shaped nipple promotes natural latch on similar to the breast, making it easy for your baby to combine breast and bottle feeding.

Compact design

The breast pump has a compact design, which makes it easy to position. Its ergonomically shaped handle offers a comfortable hold and full control when expressing milk. Being small and lightweight means it is easy to store and transport, making pumping on-the-go more discreet.

Intuitive assembly

Easy visual matching of parts for intuitive assembly.

Fully compatible range

This breast pump can be used in combination with other feeding products in the Philips Avent range, including our Classic bottles and milk storage containers. Philips Avent also provides a range of breast care accessories to help you breastfeed for longer and enhance your comfort.

Easy cleaning

Cleaning is easy, thanks to the small number of separate parts. All parts are dishwasher proof.

Easy manual operation

The manual breast pump is ideal if you express milk occasionally and value compactness. Easily operated with one hand.
