

- One 4oz bottle and nipple
- Portable, ideal for on the go

SCF330/20

More comfort, more milk

Clinically proven comfort*

When you are comfortable and relaxed, your milk flows more easily. That is why we created our most comfortable breast pump yet: Sit comfortably with no need to lean forward and let our soft massage cushion gently stimulate your milk flow.

Benefits

Clinically proven less leaning forward*

- Relaxing position, thanks to unique design

Soft massage cushion with massaging petals

- Soft massage cushion gently stimulates milk flow

Easy to set up, express and clean

- Compact lightweight design

- Few separate parts and intuitive design

Easy to combine breast and bottle feeding

- Includes our Natural bottle and nipple for natural latch on

PHILIPS

Features

Relaxing position

The breast pump has a unique design, so your milk flows directly from your breast into the bottle, even when you are sitting up straight. This means you can sit more comfortably when pumping: no need for you to lean forward to make sure all your milk ends up in the bottle. Sitting comfortably and being relaxed when pumping, helps your milk to flow more easily.

Soft massage cushion

Our massage cushion has a soft velvety texture that gives a warm feel to the skin for comfortable, gentle stimulation of your milk flow. The iconic petal cushion is designed to mimic baby suckling, intended to gently help stimulate let down.

Easy on-the-go

The breast pump is small and lightweight, which means it is easy to store and transport, making pumping on-the-go more discreet.

Easy set up, express and clean

Few separate parts and intuitive design. Easily express milk for your baby, anytime.

Includes our Natural bottle

The wide breast shaped nipple promotes natural latch on similar to the breast, making it easy for your baby to combine breast and bottle feeding.

Specifications

Please note that this is a pre-sales leaflet. The contents of this leaflet reflect the best of our knowledge per date and country mentioned above. The contents of this leaflet are subject to change without notice. Philips does not accept any liability as to the contents of this leaflet.

Functions

No leaning forward Sit in a comfortable position
 Soft massage cushion Gentle stimulation

- * Clinically proven comfort: Tests carried out on 110 mothers showed a significant preference for Philips Avent vs a leading competitor
- * More Comfort: 73% out of 73 UK breastfeeding mothers agreed that this breast pump was more comfortable than their current pump (main market brands).
- * More milk: Independent research has shown that there may be a link between stress levels and milk production. See www.philips.com/AVENT
- * BPA Free breast pump: Only associated with the bottle, and other parts that come into contact with breast milk. Following EU regulation, 10/2011
