- **Plug-and-play setup:** Works instantly with no extra steps. Passive converter, suitable only for graphics cards with DP++ output
-

Description

The equip® 133447 DisplayPort to HDMI Passive Adapter lets you connect a DisplayPort-enabled PC or laptop to an HDMI monitor, TV, or projector. It's a simple way to keep using existing HDMI displays with newer DisplayPort devices, without upgrading your screen.

Supporting video resolutions up to 4K (3840 x 2160) at 30Hz, the adapter delivers clear, stable output for everyday work, presentations, and basic multimedia. The compact 15cm pigtail design helps reduce strain on ports and is easy to carry in a laptop bag or sleeve.

With straightforward plug-and-play setup and no drivers required, you can quickly mirror or extend your desktop to an HDMI display in offices, classrooms, or meeting rooms.

Additional Information

Harmonized System (HS) code.	854442
Customs product code (TARIC).	8471800000
EAN.	4015867245507
