Small Desk with Keyboard Tray - Create a space-saving workstation in your home office or any small area

The Manhattan Compact Computer Desk with Slide-out Keyboard Tray gives you a convenient place to get work done, whether that's on a laptop/PC or using a pen and paper, in any office, home office or area where space is limited and you just need a desk.

Sleek, modern and simple design

While the desk may be small, you have ample room to work on its smooth desktop surface, which is 59 cm (23.2 in.) wide and 37 cm (14.6 in.) deep. The slide-out keyboard tray adds space to hold a keyboard, mouse and more so you can keep your work area tidy. The included bottom storage provides another area to store a computer tower, a printer, or whatever else you might need to tackle the day's tasks.

Durable, strong and able to move

This desk provides a stable workspace that lasts. Its steel frame and PVC-lined particle boards create a strong, lightweight design that supports up to 30 kg (66 lbs.). This makes it perfect for creating a more permanent place to set up your desktop PC, monitor, and more. And if you want to stay mobile, this Small Computer Desk also has four top-quality casters so you can move it freely and easily to whole new spaces.

Features:

- Creates a space-saving workstation in your home office or any small area
