HTD3500/12

Powerful Surround Sound

Home theatre system

Bring the power of the cinema into your home! The Philips HTD3500/12 Home theatre with exposed speaker drivers offers powerful surround sound and DVD video upscaling to 1080p via HDMI for near-HD images.

Benefits

Great listening experience

• 300 W RMS power delivers great sound for movies and music
• Dolby Digital for ultimate movie experience
• Exposed speaker drivers for powerful surround sound

Simply enjoy all your entertainment

• Audio-in to enjoy music from iPod/iPhone/MP3 player
• EasyLink to control all HDMI CEC devices via a single remote

• HDMI for high definition movies and picture quality
• Plays DVD, VCD, CD and USB devices

Designed to enhance your cinema at home

• Modern design to complement your home environment

PHILIPS

Features

300 W RMS power

Dolby Digital

Because Dolby Digital standards, the world's leading digital multi-channel audio standards, make use of the way the human ear naturally processes sound, you experience superb quality surround sound audio with realistic spatial cues.

Audio in

Audio-in allows you to easily play your music directly from your iPod/iPhone/iPad, MP3 player or laptop via a simple connection to your home cinema. Simply connect your audio device to the Audio-in jack to enjoy your music with the superior sound quality of the Philips home cinema system.

EasyLink

EasyLink lets you control multiple devices like DVD players, Blu-ray players, soundbar speakers, Home theatre systems and TVs etc. with one remote. It uses HDMI CEC industry-standard protocol to share functionality between devices through the HDMI cable. With one touch of a button, you can operate all your connected HDMI CEC-enabled equipment simultaneously. Functions like standby and play can now be carried out with absolute ease.

HDMI for HD movies

HDMI is a direct digital connection that can carry digital HD video as well as digital multichannel audio. By eliminating the conversion to analogue signals it delivers perfect picture and sound quality, completely free from noise. Movies in standard definition can now be enjoyed in true high definition resolution—ensuring more details and more true-to-life pictures.

Plays it all

Play virtually any disc and any media devices you want - whether they are DVDs, VCDs, CDs or USB devices. Experience the unbeatable convenience of great playability, and the luxury of sharing media files on your TV or home theatre system.

Modern design

Exposed speaker drivers
