Extend your party-machine music

- Dynamic lighting for dancing to the beat
- Optional dJ app for mixing and scratching iPhone music
- Simple setup with any Philips party machines
- Flexible placement around the house

PHILIPS

Features

Rotatable dock

Dynamic lighting

Step in time to the dazzling beat of music. Cool lights blink to the rhythm of songs, adding fun and excitement to tunes. When you don't want the lights on, you can simply turn the feature off. Add glam and spice to dance parties, sizzling celebrations and cool events with these sensational dynamic lights.

MAX Sound

MAX Sound technology produces an instant boost in the bass, maximising volume performance and instantly creating the most impressive listening experience with just the touch of a button. Its sophisticated electronic circuitry calibrates existing sound and volume settings, instantly boosting the bass and volume to maximum levels, without distortion. The end result is a noticeable amplification of both sound spectrum and volume and a powerful audio boost that will add mileage to any music.

Optional djay app

Treble and Bass Control

Treble and bass are equalizer features that control the high and low frequency sound levels of your audio respectively. Treble specifically regulates the amplification of the high tones in the music, while bass controls the amplification level of the low tones. Using the up and down keys, the listener can conveniently place more or less emphasis on the low and high tones, or leave treble and bass flat to play back music according to its original recorded setting. Treble and Bass Control lets you listen to your music the way you like it.
