

2m (6ft) MTP/MPO Fiber Optic Cable, 12F Type-B, OM4 Multimode MTP/PC Female Fiber Patch Cable, 50/125m, OFNP Plenum, MTP-12 Fiber Jumper Cord

Product ID: OM4MTP12BOFNP2M

This OM4 MTP/MPO multimode fiber cable supports high-density 40G and 100G connections between switches and servers, helping reduce cable bulk and simplify routing across data hall racks. The 12-fiber design supports high-speed MTP/MPO connectivity for multi-fiber network applications, while the Erika Violet jacket follows TIA standards to clearly distinguish OM4 from Aqua OM3 cabling.

Constructed with OM4 50/125m laser-optimized Corning glass, this cable delivers consistent high-bandwidth transmission for data center and backbone links. Type-B polarity MTP Elite connector maintains proper transmit/receive alignment for multi-lane connections, ensuring reliable performance without additional crossover components. Each cable is individually tested for signal integrity.

The OFNP plenum-rated jacket meets strict fire and low-smoke requirements, making it suitable for routing through air-handling spaces in commercial and enterprise environments, including data center and in-wall pathways.

Designed for use with structured MTP/MPO systems, including multi-fiber trunks, cassettes, and patching setups, this cable supports scalability for growing fiber networks and straightforward migration between 10G, 40G, and 100G infrastructure. The 12-fiber format enables high-density connectivity while reducing overall cable count for cleaner, more efficient installations.
