CAUTION

• Please ensure that you read and understand the content of the installation guide before you begin the installation process.
• This product must be installed by a professional installer.
• This product is intended for indoor use only.
• It is the responsibility of the installer to use the appropriate fixings for the specific installation location. Please follow the fixing suppliers recommendations for installation.
• Do not overtighten the fixings.
• This solution is designed for certified hardware and accessories. Always follow the installation guide from the hardware manufacturer for correct installation.
• Please don't power the hardware, until the entire solution is fully assembled.
• If these installation instructions are not followed precisely, it could lead to product failure and potential personal injury.
• Ergonomic Solutions / SpacePole inc. cannot be held responsible for any product failure or personal injury, if the installation instructions are not followed correctly.
• Ergonomic Solutions / SpacePole inc. cannot be held responsible for any product failure or personal injury, if any modifications have been made to the product by the customer.

Steps

Step 1:

Mark and drill the mounting holes according to the dimensions shown on the following page.

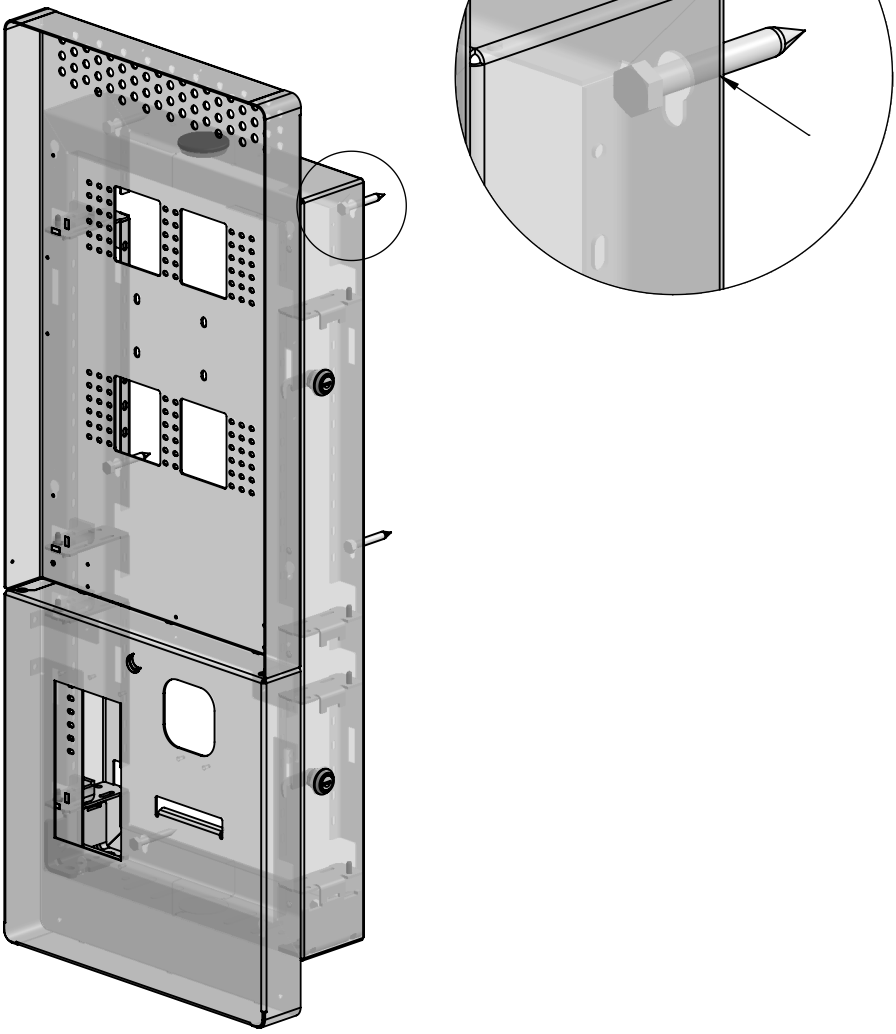

COPYRIGHT © ERGONOMIC SOLUTIONS 2026

Steps

Step 2:

Install suitable wall anchors and partially tighten the wall fasteners, leaving enough clearance to hang the enclosure (wall anchors and fasteners not supplied). Hang the enclosure onto the mounting slots on the back before fully tightening the fasteners.

Steps

Step 3:

Open the enclosure door using the keys **Part D** . Lower the enclosure until the wall fasteners are fully seated in the mounting slots. Tighten all wall fasteners securely from inside the enclosure. Verify that the enclosure is firmly attached to the wall before proceeding to the next assembly step

Steps

Step 4:

Position printer bracket **part B** at the designated mounting points. Align the bracket precisely to ensure correct printer orientation and support. Insert and tighten screws.

Steps

Step 5:

Carefully lower the printer onto the mounted brackets. Verify that the printer is seated securely.

Steps

Step 6:

Place the MultiGrip plate (must be ordered separately) onto its designated mounting surface. Ensure it is correctly aligned with the mounting holes. Secure the MultiGrip plate by inserting the screws into the mounting holes and tightening them securely.

Steps

Step 7:

Secure the bracket **part C** to the back of the screen using 4 × M4 screws

Steps

Step 8:

Position the screen on the designated mounting area of the door. Ensure the screen is correctly oriented and centered. Secure the screen using 4 x M5 screws. Confirm that the screen is firmly mounted. While monitoring the cable, gently close the door to ensure it moves freely without compressing or straining the cable.

Steps

Step 10:

Place the barcode scanner into position. Route the scanner cable through the cable opening.

Reinstall the lock bracket and tighten the two screws to secure the barcode scanner
