

SLOT-IN PC WITH INTEL® CORE i7 PROCESSOR (3RD GENERATION)

STv2 Core i7 ivy 4x2.1 4/40/WS7E ORDER CODE: 100013075

NEC Slot-In PC STv2

The Slot-In PC is a complete PC solution, compatible with NEC Public Displays with STv2 or DualSlot and also NEC PX Series and PH Series installation projectors.

The new Intel Core i7 processor (3rd generation "Ivy Bridge") Slot-in PC not only delivers top-of-the-line performance ideal for most demanding tasks, it also features a wide range of connectivity options, including 2 x USB 3.0, SD Card, RJ45, W-LAN and Mini DisplayPort out, so it can be easily integrated into your network architecture.

NEC OPS CONCEPT: A SIMPLE PLUG IN TO THE FUTURE

The NEC Option Board concept means that your display has a versatile upgrade path for the future. Your STv2 Option Board can be exchanged between any NEC display or high end NEC projector fitted with a Dual or STv2 option slot, meaning that a single OPS device can be used in different products in different locations on a simple plug in and play basis.

With no cables required due to internal connection for power, video, audio and control, the option board fits neatly within the display or projector profile for a more elegant installation.

SINGLE SERVICE POINT

An NEC Display Solution that incorporates an Option Board uniquely gives the customer one service contact and matching warranties for the display and the board and in the case servicing is required, a slot product can easily be removed and serviced separately with the display in tact.

FUTURE PROOFING YOUR DISPLAY

Option Slots give your display an either way 'upgrade path', enjoy improved cost of ownership as you can upgrade your OPS device or upgrade your display individually during the ordinary lifecycle. Your OPS devices are exchangeable between compatible products either directly or in certain cases using a cradle.

Delivering Genuine Benefits

Core i7 4 x 2.1 GHz Processor (3rd generation "Ivy Bridge") with Integrated Intel® Graphics

Incredible performance paired with stunning visuals

Wide Connectivity: 2 x USB 3.0, SD Card Slot, Gigabit Ethernet, W-LAN (optional) and Mini DisplayPort out

Flexible User Configuration with a Variety of Solid State Drives, RAM and Operating Systems as well as W-LAN

Full 1080p Playback ensures Reliable Crisp and Clear Content

Full Networking Capabilities with Integrated Ethernet Connection

All Connectors are inside the Displays including Power, Video & Audio Signals and RS232. No External Cables Required.

For Multi-touch applications Microsoft WS7P is required:
STv2 Core i7 ivy 4x2.1 4/40/WS7P; Order Code: 100013191

Compatible with NEC / Intel OPS Standard for Option Slot Products
