AEG

7000 ProSteam® 8 kg Washing Machine

LFSR71844B

Steam instead of wash – in only 25 min. with 96% less water*
Steaming instead of washing is one of the best ways to refresh clothes that do not need a full wash. The 7000 ProSteam® Washing Machine can use the steam cycle to refresh clothes, which consumes only 2L of water per cycle and is kinder to clothes.

* Internal test with a 1 kg load on the steam programme vs the delicates programme.

Product Benefits & Features

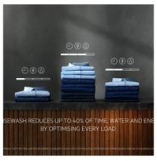

GARMENTS REFRESHED,* WRINKLES REDUCED WITH STEAM REFRESH
Steam Refresh neutralises odours* and reduces wrinkles on garments, including delicates, in just 25 minutes. And if you like an extra boost of freshness, just add our aromatic steam fragrance. Giving it that just washed freshness.

*External test show neutralisation of cigarette smoke odour in a Steam Refresh cycle.

Mixload 69 min customises laundry cycles and saves you time
The MixLoad 69 min programme adjusts energy usage based on load weight when cleaning daily mixed loads. It washes clothes at 30°C and in just 69 minutes. Achieve optimal performance and outstanding cleaning results with MixLoad 69 min.

Precisewash reduces up to 40% of time, water and energy* by optimising every load
ProSense+ automatically adapts the energy usage and settings depending on the weight of the laundry load. So, you get customised laundry cycles that reduce energy, time and water usage by up to 40% when washing smaller loads.*

*Internal test for time, water and energy consumption of a 30°C Cotton cycle optimized with PreciseWash for 1kg vs maximum load.

The smooth Care drum pattern is even gentler on your fabrics*
The Care drum lets garments glide smoothly thanks to its elevated cushion-like drum pattern and optimised lifter paddle. A thin film of water covers the holes during washing. Providing your fabrics with an even gentler laundry experience.

*Internal tests comparing the Care drum to the AEG ProTex drum.

The hygiene programme removes more than 99.99% of bacteria and viruses*
The Hygiene programme certified by Swissatest is a high-performance wash cycle that removes more than 99.99% of bacteria and viruses* from clothes. By keeping your wash temperature above 60°C, you can also reduce allergens.

*Tested for Staphylococcus aureus, Enterococcus faecium, Candida albicans, Pseudomonas aeruginosa and MS2 Bacteriophage in external test performed by Swissatest Testmaterialien AG in 2021 (Test Report No. 202120117)

- Includes 5 year warranty
- Capacity guide: Suitable for couples or flatmates.
- MixLoad69: Wash your daily mixed loads at just 30°C in only 69 minutes.
- Delicates: Gently washes the most delicate of fabrics.
- ProSteam®: Refresh clothes with a gentle steam cycle, using only 2L of water, ideal for garments that don't need a full wash.
- Steam refresh: Neutralise odours and reduces wrinkles on garments, including delicates, in just 25 minutes.
- PlusSteam: Allows you to finish a wash cycle with a burst of steam.
- TimeSave: Cuts cycle time by up to half for a faster, flexible wash.
- Aqua control: An internal system which monitors the water level to detect leakage.
- Prewash option
