- USB-C devices must support DisplayPort Alt Mode or Thunderbolt™ 3/4 technology
- Supports Windows® and macOS®

Packing content

1x IB-WL101
1x Manual

Wireless screen mirroring made simple

IB-WL101 allows you to mirror your notebook or smart device screen wirelessly to a larger display. No HDMI® cable stretched across the room, no complicated setup. Just connect the transmitter to your device and the receiver to your monitor or TV. It's ideal for movies, presentations, or sharing content in meetings.

**Upstream
power delivery**

USB-C® Transmitter with Power Delivery

The transmitter features a USB Type-C® host connection and an additional USB Type-C® PD-IN port supporting up to 100 W power input. This allows you to power your notebook while streaming content at the same time. You don't have to worry about battery levels during long meetings or movie sessions. One device handles both signal transmission and charging.

Stable 1080p transmission up to 30 Meters

No more "Will the connection hold?!" With a maximum resolution of 1080p and a transmission distance of up to 30 meters, IB-WL101 gives you freedom of movement. You're not limited to sitting right next to your screen. This makes it practical for conference rooms, classrooms, or living rooms.
