22" Touch Monitor - IP67/IP22 - Windows 11 - I5, 6G memory, ordinary hard disk, 4G wireless network card

Product Overview:

Ernitec introduces its latest touch screen monitors, designed specifically for harsh environments.

With operation Windows system - I5, 6G memory, ordinary hard disk, with 4G wireless network card

These monitors feature IP67 protection on the front and IP22 protection on the back, ensuring durability and reliability in wet and humid conditions.

The capacitive touch technology offers precise and responsive interaction, making them ideal for various applications.

Key Features:

IP67 Front Protection: Complete protection against dust and water, allowing the monitors to withstand immersion up to 1 meter for 30 minutes

IP22 Back Protection: Protection against dripping water when tilted up to 15 degrees, suitable for indoor environments

Capacitive Touch Technology: Provides accurate and responsive touch capabilities, enhancing user experience

Swimhall Ready: Specifically designed to perform optimally in swimhall environments, resisting humidity and water exposure

Target Audience:

Swimhalls and Aquatic Centers: Ideal for installations in swimhalls, aquatic centers, and other wet environments

Industrial Applications: Suitable for factories and industrial settings where water and humidity are prevalent.

Outdoor Venues: Perfect for outdoor installations requiring robust and weather-resistant monitors.

Benefits:

Durability: With IP67 and IP22 ratings, these monitors are built to last in challenging environments.

Enhanced User Experience: Capacitive touch technology ensures smooth and precise interaction.

Versatility: Suitable for a wide range of applications, from swimhalls to industrial settings.

Marketing Strategy:

Highlight Durability: Emphasize the IP67 and IP22 ratings in marketing materials to showcase the monitors' resilience.

Focus on User Experience: Promote the benefits of capacitive touch technology for improved interaction.

Target Specific Markets: Tailor marketing campaigns to swimhalls, industrial applications, and outdoor venues.

Conclusion: Ernitec's new touch screen monitors are the perfect solution for environments where water and humidity are a concern.

With their robust protection and advanced touch technology, they offer reliability and enhanced user experience, making them a valuable addition to any swimhall or industrial setting.

These specific monitors when installed outside needs to have a roof or being built into a wall to protect the backside of the monitor.

Specifications

Design	Housing material	Metal
Display	Display diagonal	22 "
	Display resolution	1920 x 1080 pixels
	Display technology	TFT
	Number of simultaneous touchpoints	10
	Response time	5 ms
	Touchscreen	Yes
	Touchscreen technology	Capacitive
Network	Wi-Fi	Yes
Ports & interfaces	HDMI ports quantity	2
Power	Power consumption (max)	20 W
Vendor information	Brand Name	Ernitec
	Homepage	http://www.ernitec.com
	Warranty	5 Year(s)
