Product ID: DK30C2DPEPRAU

,

This universal docking station offers high-resolution display support and broad OS compatibility to simplify device management and user experience, making it ideal for modern professional workspaces including hot desks and mixed-device environments.

Support up to three 4K 60Hz monitors via USB-C while delivering up to 140W of power to high-performance laptops. A USB-A adapter extends compatibility to legacy systems, enabling flexible dual-display setups in shared workstations and hybrid IT environments.

DisplayLink-based HDMI and DisplayPort outputs enable multi-monitor setups on macOS, Windows, and ChromeOS. The USB-C video output port leverages the laptop's built-in GPU to deliver high-performance video output. A unified driver experience simplifies hot desk provisioning, reduces IT support overhead, and ensures consistent performance across transient and mobile workstations.

The integrated 2.5GbE port ensures high-speed data transfers and supports PXE Boot, Jumbo Frames, and Wake-on-LAN. Built-in lock slots and optional mounting solutions (SSPMSUDWM, DOCK-NUC-VESA-MOUNT, SSPMSVESA) enhance the physical security of the docking station.
