SHO9207

High definition sound. Virtually indestructible.

The Philips O'Neill Crash SHO9207 is the toughest headphone we've ever created. Not only can it withstand 1.5 tons of static force, it also delivers mind-blowing sound in high-def quality.

Supreme comfort

- Chill out mode for around the neck wearing comfort
- Mic, remote and in-line iPhone control for music and calls
- Soft, noise-isolating leather cushions

Mind-blowing sound

- 40mm neodymium driver for high definition sound
- Acoustically tuned for deep bass with precise clarity
- Metal chamber protects driver even in extreme environments

Prepare for impact

- Capable of withstanding 1500kg of static force
- Metal cabinet to protect driver and sound chamber
- Tough fabric cable with reinforced connectors
- Ultra flexible TR90 headband

PHILIPS

O'NEILL

Highlights

40mm neodymium driver

State-of-the-art 40 mm neodymium drivers deliver high definition sound that is crispy and with deep bass. The Crash has been designed and crafted to be among the best sounding, premium headphones that Philips has ever made.

Chill out mode

The Crash has an innovative 'chill' setting which allows you to relax the headphone for comfortable wearing when it is just hanging around your neck. Simply sliding the lever on the headband down spreads the earcans wider so they do not sit too right under the chin area.

Noise-isolating cushions

The incredibly soft ear cushions enclose the speakers around your ears to create a perfect seal. You will be able to enjoy all the sound details in your favorite music. Designed to alleviate pressure on your ears, you can wear The Crash headphones in true comfort and for long periods of time.

Metal cabinet to protect drive

The Crash has been designed with an aluminum sound chamber that always protects the speaker driver through external crashes or bumps. Even in the most extreme user cases, the sound chamber, which is important for consistent, high quality sound, stays pristine to always deliver the best sound.

Protective metal chamber

Metal chamber protects driver from impacts.

Tough fabric cable

The connectors and fabric cable are hefty and reinforced, providing best-in-class bending and pulling cycles for the cable. The cable has been tested to withstand up to 100,000 bending cycles.

Specifications

Product dimensions

- Product dimensions (W x H x D): 18 x 20 x 10 cm
- Weight: 0.4 kg

Sound

- Acoustic system: open
- Diaphragm: Mylar dome
- Frequency response: 12 - 24 000 Hz
- Impedance: 32 ohm
- Magnet type: Neodymium
- Maximum power input: 50 mW
- Sensitivity: 105 dB
- Speaker diameter: 40 mm
- Type: Dynamic
- Voice coil: CCAW

Connectivity

- Cable Connection: single-sided cable
- Cable length: 1.2 m
- Connector: 3.5 mm
- Finishing of connector: gold-plated
- Type of cable: OFC

Packaging dimensions

- Packaging dimensions (W x H x D): 19.5 x 24 x 11.5 cm
- Nett weight: 0.42 kg
- Gross weight: 1 kg
- Tare weight: 0.58 kg
- Type of shelf placement: Laying
- EAN: 69 23410 71642 9
- Number of products included: 1
- Packaging type: Carton

Outer Carton

- Outer carton (L x W x H): 37 x 21 x 25.5 cm
- Nett weight: 1.26 kg
- Gross weight: 3.36 kg
- Tare weight: 2.1 kg
- GTIN: 1 69 23410 71642 6
- Number of consumer packagings: 3
