
Epson SureColor SC-T7000 POS

DATASHEET

This fast, economical 4-colour printer comes with a version of PRESTIGE software specially created for Epson. It's easy to start creating posters straight away, even with no previous experience. The software provides a large selection of pre-defined layouts, including themed graphics for fashion, groceries, travel, toys and much more. It's ideal for weekly adverts and short-term promos.

Designed to fit seamlessly into the office environment, the SC-T7000 features sleek styling, a small footprint and low noise levels, and is operated from the front to allow convenient placement against a wall.

The SC-T7000 takes just 28 seconds to produce an A1 print in draft mode on plain paper, and offers optimised running costs with a choice of 700ml, 350ml and 110ml ink cartridge sizes.

This printer is so easy to use that operators do not need special training. All controls are at the front, and switching between photo and matte black ink is automatic. Media is fed in at the top, and the finished prints emerge at the front, stacking neatly into a basket. Tracking how much paper is left on a roll is simple thanks to media barcode printing.

The SC-T7000 is straightforward to install and easy to integrate into most production environments.

Epson UltraChrome XD Ink has been specifically developed to produce high-quality, durable prints with deep blacks, a wide colour gamut and crisp, dense lines with a minimum width of 0.02mm. Epson's Variable-size Droplet Technology brings clarity to fine detail while delivering optimum efficiency for larger areas of colour.

Helping to reduce impact on the environment, the SC-T7000 uses water-based inks and is qualified by ENERGY STAR for its excellent power efficiency.

KEY FEATURES

- Easily create posters
- Print up to 44-inches wide
- Choice of cartridge sizes
- Operated from the front
- 0.02mm minimum line width

PRODUCT SPECIFICATIONS

TECHNOLOGY

Printing Method	Epson Micro Piezo™ print head
