i-tec USB-A/USB-C Charging HUB 16xUSB-C port + Power Adapter 90W

PRODUCT DESCRIPTION

Maximum connectivity. Individual control. One powerful USB-C hub.

Connect and manage up to 16 USB-C devices through a single hub. Keep your workspace organised and all connected devices easily accessible.

The hub is designed for environments that require a larger number of USB connections. It offers 16 USB-C ports, each with its own ON/OFF switch. You can therefore enable or disable individual ports without physically disconnecting devices.

With data transfer speeds of up to 5 Gb/s, it provides reliable connectivity for USB peripherals, external storage and other compatible devices. Each port also supports charging connected mobile devices at up to 10 W, depending on the number of devices being charged simultaneously.

Integrated overload and overcurrent protection, individual LED indicators and Plug & Play functionality ensure convenient everyday use.

The package includes a USB-C cable with an integrated USB-A adapter for easy connection to laptops and desktop computers.

A practical solution for professional workspaces, IT environments and anywhere that requires connections for a larger number of USB-C devices.

PRODUCT FEATURES

- 1 × USB-C 3.2 Gen 1 (5 Gbps) port for connecting to the host device
- 16 × USB-C 3.2 Gen 1 (5 Gbps) ports
- USB-C port charging power up to 10 W
- 1 × power input (DC 12 V/7.5 A)
- ON/OFF switches for the ports
- LED indicators
- USB-C 3.2 Gen 1 data cable (100 cm) with USB-C to USB-A adapter
- Overvoltage and overcurrent protection
- Product dimensions: 231 × 53 × 18 mm
- Product weight: 192 g
- OS: Windows 10/11, macOS, iOS, iPadOS, Android, Chrome OS, Linux

Hardware requirements:

- Device with an available USB-A, USB-C, USB4 or Thunderbolt™ 3/4/5 port

Operating system:

- Windows 10/11, macOS, iOS, iPadOS, Android, Chrome OS, Linux
