i-tec USB-A/USB-C Charging HUB 10xUSB-C port + Power Adapter 48W

PRODUCT DESCRIPTION

Connect, charge and control – all with a single USB-C hub

Expand your laptop or desktop computer with 10 USB-C ports and conveniently connect multiple devices simultaneously through a single hub.

Each USB-C port has its own ON/OFF switch, allowing you to turn individual devices on and off without unplugging cables. Whether you work with external drives, USB accessories or mobile devices, data transfer speeds of up to 5 Gb/s ensure fast, efficient operation.

The hub also charges connected devices at up to 10 W per port, depending on the number of devices being charged simultaneously. Integrated overload and overcurrent protection helps ensure safe operation.

The included USB-C cable with an integrated USB-A adapter makes it easy to connect the hub to a wide range of laptops and desktop computers. LED indicators and Plug & Play functionality ensure simple, convenient everyday use.

An ideal solution for offices, technical workspaces and anyone who needs multiple USB-C connections neatly organised in one place.

PRODUCT FEATURES

- 1 × USB-C 3.2 Gen 1 (5 Gbps) port for connecting to the host device
- 10 × USB-C 3.2 Gen 1 (5 Gbps) ports
- USB-C port charging power up to 10 W
- 1 × power input (DC 12 V/4 A)
- ON/OFF switches for the ports
- LED indicators
- USB-C 3.2 Gen 1 data cable (100 cm) with USB-C to USB-A adapter
- Overvoltage and overcurrent protection
- Product dimensions: 160 × 53 × 18 mm
- Product weight: 134 g
