

MPN: MBE2147RC-MS

# 147GB SAS 15000RPM 2,5" FW0103

## 16MB Cache 15MM New Pull

In CoreParts you will find a wide range of alternative Hard Drives that match the performance of your original Hard Drives with different sizes, Nand Flash and capacities, for consumer or industrial use. All manufactured by high-end, certified and trusted suppliers.

- High Quality
- Tested and certified
- Matching Performance
- Refurbished for a sustainable future

## Specifications

|                        |                                   |                    |
|------------------------|-----------------------------------|--------------------|
| Features               | Average latency                   | 2 ms               |
|                        | Component for                     | Server/workstation |
|                        | HDD capacity                      | 147 GB             |
|                        | HDD size                          | 2.5 "              |
|                        | HDD speed                         | 15000 RPM          |
|                        | Interface                         | SAS                |
|                        | Mean time between failures (MTBF) | 1600000 h          |
|                        | Read seek time                    | 0.2 ms             |
|                        | Storage drive buffer size         | 16 MB              |
|                        | Write seek time                   | 0.4 ms             |
| Operational conditions | Non-operating altitude            | 0 - 12192 m        |
|                        | Non-operating shock               | 400 G              |
|                        | Non-operating vibration           | 5 G                |
|                        | Operating altitude                | 0 - 3048 m         |
|                        | Operating relative humidity (H-H) | 5 - 95 %           |
|                        | Operating shock                   | 100 G              |
|                        | Operating temperature (T-T)       | 5 - 55 °C          |
|                        | Operating vibration               | 1 G                |
|                        | Storage relative humidity (H-H)   | 5 - 95 %           |
|                        | Storage temperature (T-T)         | -40 - 70 °C        |
| Other features         | Data transfer rate                | 6 Gbit/s           |
|                        | Drive ready time                  | 15 s               |
|                        | Product colour                    | Black              |
| Packaging data         | Quantity                          | 1                  |
| Power                  | Operating voltage                 | 5 V                |

|                    |                             |            |
|--------------------|-----------------------------|------------|
| Power              | Power consumption (typical) | 4.1 W      |
|                    |                             |            |
| Vendor information | Brand Name                  | CoreParts  |
|                    | Warranty                    | 3 Month(s) |
