

## DisplayPort to HDMI Active Video and Audio Adapter Converter - DP to HDMI - 1920x1200

Product ID: DP2HDS

The DP2HDS Adapter converts DisplayPort to HDMI® with audio pass-through support, enabling you to connect a desktop or laptop computer that is equipped with DisplayPort A/V output to an HDMI® monitor, projector, or display.

Unlike a passive adapter, the DP2HDS actively converts single mode and dual mode DisplayPort output, which is ideal for graphics cards that do not output dual mode/multi-mode (DP++) signals, such as ATI™ Eyefinity cards.

Backed by a StarTech.com 3-year warranty and free lifetime technical support.
