Features

2100 Watt motor

2100W

2100 W motor generates max. 475W suction power for excellent cleaning results.

TriActive nozzle

The TriActive nozzle applies 3 cleaning actions in one go: 1) It gently opens the carpet with its specially designed soleplate to remove the dust deep down. 2) It sucks up big bits with its larger opening at the front. 3) It picks up the dust and dirt closely alongside furniture and walls with its left and right side air channels.

EPA 12 filter

EPA

This special outlet filter captures 99.5% of the dust before the air is blown back into your room, ensuring a clean, dust-free, environment.

s-bag Ultra Long Performance

The Philips s-bag Ultra Long Performance made of five layers of high quality, non-clogging material captures even the finest dust. This excellent filtration gives you a better cleaning result and clean air in your home. The multilayer filtration also maintains the vacuum cleaners high suction power during the entire lifetime of the bag. The s-bag ULP has been tested and certified by the independent test institute TÜV Rheinland Group, proven to last up to 80% longer than a standard dustbag.

360Flex hose swivel

The Philips 360Flex hose swivel offers full 360 degrees of rotation of the hose for smooth maneuvering of the vacuum cleaner around your house.

Extra long grip with air slide

This ergonomically shaped grip is convenient to use. Its extra long design gives you farther reach, so you can easily clean hard to reach places. The air slider allows you to adjust the suction power without having to bend down.

5L dust capacity

5L

The specially designed 5L dust chamber allows you to make optimal use of your dust bag, so you can clean for longer.

Airflow Max technology

Airflow Max technology maximizes the airflow, allowing the dustbag to unfold uniformly, so you get the highest suction power, even as the bag fills-up!
