

Philips

Soundbar speaker

- Dolby Digital
- Subwoofer
- Virtual surround

CSS2115/05

Effortlessly richer sound with your TV

Easy 1-cable connection

Don't judge by its size, because this small soundbar packs a lot of punch! No more muffled dialogues with 2 dedicated tweeters. DoubleBASS and Virtual Surround Sound technology add excitement and surround sound to the movie.

Benefits

Designed for simplicity

- Low-rise profile for the perfect fit in front of your TV
- Ultra-compact soundbar—just 70 cm/28" wide

Richer sound for watching TV and movies

- Virtual Surround Sound for a realistic movie experience
- Dolby Digital for ultimate movie experience
- DoubleBASS technology for fuller and deeper bass

- Separate subwoofer adds a thrill to the action

Connect and enjoy all your entertainment

- Enjoy music from iPod/iPhone/iPad with Music iLink
- Works with TVs, BD/DVD players, gaming consoles, MP3 players

PHILIPS

Features

Virtual Surround Sound

Philips Virtual Surround Sound produces rich and immersive surround sound from a less than five-speaker system. Highly advanced spatial algorithms faithfully replicate the sonic characteristics that occur in an ideal 5.1-channel environment. Any high quality stereo source is transformed into true-to-life, multi-channel surround sound. No need to purchase extra speakers, wires or speaker stands to appreciate room-filling sound.

Dolby Digital

Because Dolby Digital standards, the world's leading digital multi-channel audio standards, make use of the way the human ear naturally processes sound, you experience superb quality surround sound audio with realistic spatial cues.

DoubleBASS technology

DoubleBASS ensures you hear even the deepest bass tones from compact-sized subwoofers. It captures low frequencies and recreates them in the audible range of the subwoofer - delivering sound with more boom and panache, and ensuring you get a full, uncompromised listening experience.

Music iLink

Philips Music iLink allows you to easily play your music directly from your iPod/iPhone/iPad, MP3 player or laptop via a simple connection to your home theatre. Simply connect your audio device to the Music iLink jack to enjoy your music with the superior sound quality of the Philips home theatre.

Specifications
