## AVENT

Microwave Steam  
Steriliser

SCF271/51

## Protect your baby, even when you travel

Simple, fast, portable

The Microwave Steriliser's compact design makes it ideal for travel. Despite its small size, it is the only microwave steriliser that fits 6 Philips Avent bottles. Includes 1 Avent Feeding Bottle and handy accessories.

### Compact and lightweight

- Fits most microwaves. Convenient for travel.

### Large capacity

- Holds 6 Philips Avent bottles

### Ultra fast, easy to use

- Just add water, load and place in the microwave

### Safe easy handling

- Side grips close the lid securely

### Safe, easy handling

- Contents remain sterile for up to 24 hours if unopened

# Highlights

## Natural steam sterilisation

Sterilising is all about protecting your baby from particularly harmful milk bacteria until his immune system is strong enough. The Philips Avent Steriliser uses the hospital method of steam sterilisation, which is quick, easy and efficient, with no chemicals involved.

## Contents remain sterile

Contents remain sterile for up to 24 hours if unopened

## Just add water

Just add water, load and place in the microwave for as little as 2 minutes. The exact length of the cycle will depend on the wattage of your microwave: 2 min at 1100-1850 Watt, 4 min at 850-1000 Watt, 6 min at 500-850 Watt.

## Side grips close lid securely

The microwave steriliser has clips on the side for extra safety. The clips close the lid securely so hot water cannot easily escape when you take the steriliser out of the microwave. The side grips have also been designed to stay cooler to help you handle the steriliser safely.

## Convenient for travel

The Philips Avent Microwave Steriliser has been designed to fit most microwaves on the market. Its small size makes it convenient for travel, ensuring that you always have a sterile bottle when you are going on a short overnight trip or on a longer holiday abroad. Also ideal as an extra steriliser for the grandparents' house.

## Holds 6 Philips Avent bottles

Despite its small size, it is the only microwave steriliser that is designed to fit 6 Philips Avent bottles. Whereas most microwave sterilisers will only fit 4 bottles, the Philips Avent Microwave Steriliser allows you to sterilise a full day's worth of bottles in one go. It is also suitable for sterilising breast pumps.
