

#### Mini Hi-Fi System

- 100W
- Dock for iPod/iPhone

FWM200D/37

## Enjoy iPod/iPhone music in powerful sound

### Obsessed with sound

Experience uninterrupted enjoyment of your CD/MP3/WMA songs for up to 10 hours on the FWM200D. Extend your music pleasure by listening to your tunes at home from your iPod/iPhone and portable player - with USB Direct and MP3 player-in.

#### Benefits

##### Enrich your sound experience

- Dynamic Bass Boost for deep and dramatic sound
- Digital Sound Control for optimized music style settings
- 100W RMS total output power
- MAX Sound for instant power boost

##### Enjoy your music from multiple sources

- MP3 Link for portable music playback
- Play & charge your iPod / iPhone

- Play MP3-CD, CD and CD-R/RW
- USB Direct for MP3/WMA music playback

##### Easy to use

- Dock any iPod/iPhone, even in its case
- Single remote control for the system and iPod
- Wake up and sleep timer functions

# PHILIPS

Features

100W RMS total output power

RMS refers to Root Mean Square which is a typical measurement of audio power, or rather, the electrical power transferred from an audio amplifier to a loudspeaker, which is measured in watts. The amount of electrical power delivered to the loudspeaker and its sensitivity determines the sound power that is generated. Essentially, amplifiers are limited by the electrical energy they can amplify and loudspeakers by the electrical energy they can convert into sound energy, without distorting the audio signal. The higher the wattage, the better the sound power emitted by the speaker.

Dock iPod/iPhone in its case

Smartly designed spring-loaded docking port effortlessly accommodates any iPod or iPhone, without special adaptors. What's more, it works even when most protective cases are on – just dock your iPod or iPhone as it is. Now you can truly have fuss-free enjoyment of your music.

MAX Sound

MAX Sound technology produces an instant boost in bass, maximizing volume performance and instantly creating the most impressive listening experience with just the touch of a button. Its sophisticated electronic circuitry calibrates existing sound and volume settings, instantly boosting bass and volume to maximum levels without distortion. The end result is a noticeable amplifying of both sound spectrum and volume and a potent audio boost that will add mileage to any music.

Specifications

Please note that this is a pre-sales leaflet. The contents of this leaflet reflect the best of our knowledge per date and country mentioned above. The contents of this leaflet are subject to change without notice. Philips does not accept any liability as to the contents of this leaflet.
