## Features

### Jojoba oil ceramic plates

For maximum shine, the ceramic plates have been infused with natural and heat-resistant Jojoba oil. The plates glide effortlessly through your hair, giving you perfect shiny hair.

### Ionic Care

Give your hair an instant care with ionic conditioning. Charged negative ions eliminate static, condition the hair and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is hair that is beautifully shiny, smooth and frizz-free.

### Constant temperature

This straightener keeps a more constant temperature. Thanks to its high-performance heater it allows you to straighten your hair at a more caring temperature while getting the exact style you want!

### Even Heat Distribution

Advanced Philips EHD+ technology means that your styler will always distribute the heat very evenly - even at high temperatures, and prevents damaging hot spots. This gives added protection and thus helps to keep your hair healthy and shiny.

### Gentle sonic vibrations

Gentle and pleasant vibrations evenly distribute the hair over the plates so that each hair benefits from the care effects

### Instant heat-up
